About the Index

CRISIL 10 Year Gilt Index seeks to track the performance of the 10 year benchmark government security

Features and Characteristics

- Base date for the index: September 01, 2001
- Total Return Index seeking to capture coupon and price return of the on-the-run 10-year benchmark government security
- Index marked to market on a daily basis using CRISIL Gilt Valuations
- Fully invested at all points of time with no cash component

Key Characteristics

- **Rich history:** CRISIL 10 Year Gilt Index has an inception date of September 01, 2001. Thus the index has been in existence for over a decade and seen multiple interest rate cycles
- **Replicability:** The index seeks to track the movement of the most actively traded government security in the market

Methodology

- The on-the-run 10 year government security considered as the 10 year benchmark security
- Market participants (banks, insurance, mutual funds and primary dealers) polled on a weekly basis to ascertain the 10 year benchmark government security. If there is a change in the benchmark security, the same is reflected in the index
- Index computed on daily basis using the gross price return of 10 year benchmark government security and its coupon cash flow return
