

# CRISIL placement data audit

CRISIL is a leading, agile and innovative global analytics company, driven by its mission of making the markets function better. In the highly competitive education sector, standardisation becomes key to make reports transparent and comparable. To cater to this need, CRISIL conducts placement data audit for business schools (B-schools) under its offerings for the education sector.

## What is CRISIL placement data audit?

CRISIL offers a placement data audit service under its Business School Grading initiative, wherein it validates placement statistics across functions, sectors, and locations as per the Indian Placement Reporting Standards (IPRS) framework. The standards require the placement data to be audited by an independent auditor, such as CRISIL.

CRISIL has conducted 100+ B-school audits across India.

## Key aspects covered under placement data audit

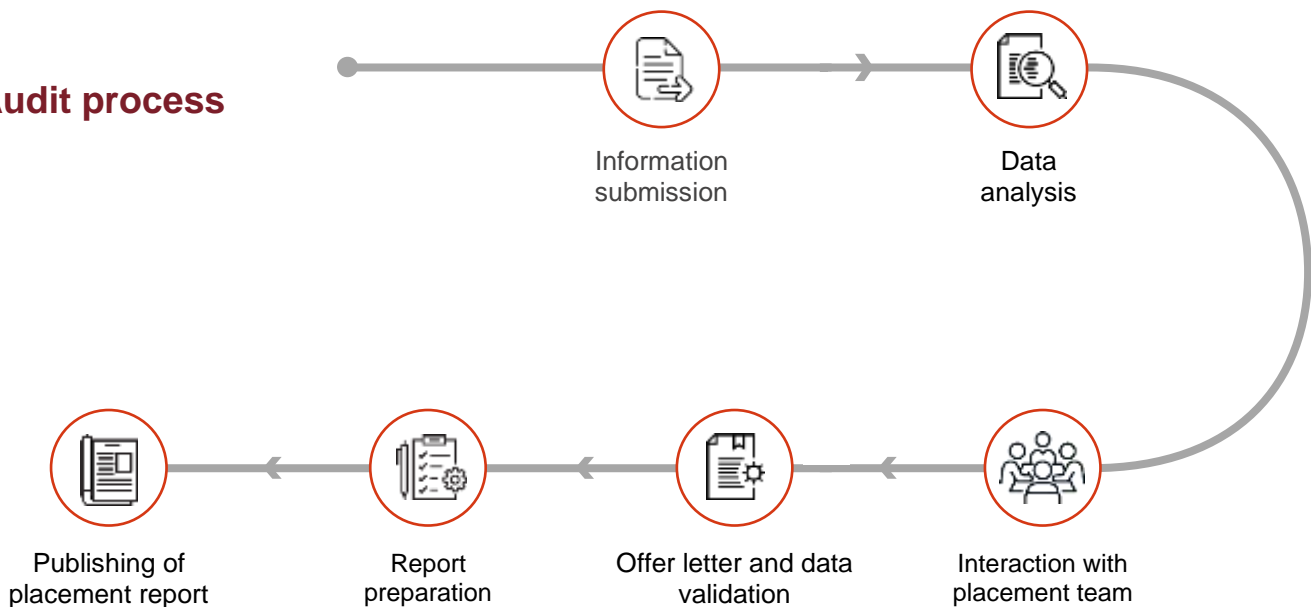

**Validation of information:** CRISIL validates the information with respect to remuneration, job function, and location of the placement through communication received from recruiters.

**Analysis of key placement statistics:** We analyse statistics including minimum, maximum, median and average salaries across parameters and present then data in alignment with the IPRS.

## Audit process

## Benefits

- Provides established benchmarks with other programmes
- Helps students and employers identify quality programmes
- Increases acceptance from recruiters as the audit is conducted by CRISIL, a well-established and respected name among India's corporates
- Adds to the credibility of the management institute
- Showcases transparency in B-school operations while seeking funding or education loans
